Parts

1. Tank
2. Skimmer (BM Internal Skimmer 120)
3. Pump (BM ReefPower 600)
4. Lighting fixture
5. Lighting
6. Adapter lighting
7. Pump hose connector
8. Nozzle coupling
9. Nozzle
10. Pump hose
11. Glass cover brackets
12. Mounting screws of lighting fixture
13. Mounting screws of lighting
14. Screwdriver
15. Glass cover
16. Bottom protector
17. Sump cover

Step 1

Place the tank (1) on the Bottom protector (16). Place aquarium on a smooth, horizontal surface with an adequate load-bearing capacity. Do not place the aquarium on electrical appliances or on furniture with surfaces which are liable to staining by water.

Please note. The total weights of the set up: aquaria completely with water and additives (depending on type of decoration) may be up to 120 kg

Step 6

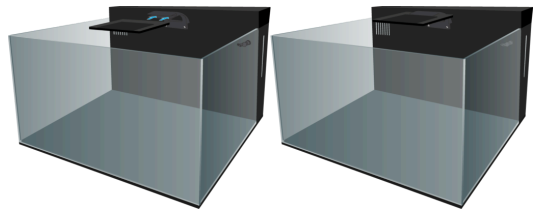

Place the cover (17) on the sump. Adjust the position of the lighting fixture so it fits in the openings of the cover, then tighten the screws.

[View Parts »](#)

Step 7

Slide the lighting (5) in the fixture (4).

[View Parts »](#)

Step 8

Secure the lighting with the mounting screws (13) using the screwdriver (14).

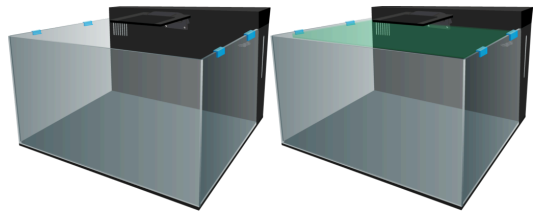

[View Parts »](#)

Step 9

Place the brackets of the cover (11) on the edge of the aquarium and place the glass cover (15) on the brackets.

The Reef Coral Garden 55 is now ready for use.
